4. OTHER CURRENT PROJECTS

APPRAISAL OF FOREIGN ECONOMIC INTELLIGENCE REQUIREMENTS, FACILITIES AND ARRANGEMENTS RELATED TO THE NATIONAL SECURITY

(Memo for NSC from Executive Secretary, same subject, dated February 7, 1950; NSC Action No. 282)

In approving the proposal by the Acting Chairman, NSRB, in the reference memo, the NSC directed (NSC Action No. 282) the Central Intelligence Agency, in collaboration with the Government agencies concerned, to organize and conduct a study of foreign economic intelligence requirements, facilities and arrangements related to the national security and, based on the findings of this study, to prepare for Council consideration and action a comprehensive plan for satisfying the foreign economic intelligence requirements of the national security and for a coordinated interagency effort to this end based on a definite allocation of responsibilities among the agencies concerned.

Pursuant to the President's direction, the Director of Central Intelligence was requested, on September 1, 1950, to prepare a report on the present status of this project.

On September 8, 1950, the Director of Central Intelligence reported that (a) a draft statement of requirements was undergoing internal CIA coordination to be completed by September 15, 1950; (b) preliminary surveys of Army, Navy and Air Force facilities relating to the production of economic intelligence had been received; and (c) plans in collaboration with the Bureau of the Budget were in preparation for a survey of governmental economic facilities outside the Defense Department. It was also reported that close collaboration with Budget was necessary because, when this project was assigned to CIA, Budget was already engaged in a survey of Foreign Service economic reporting and was planning a survey of the use of commodity specialists in the Government. Accordingly, CIA and Budget agreed to execute these projects jointly. The Foreign Service survey is now in draft form but the commodity specialist survey has been delayed. CIA has requested Budget to release CIA from the commitment for a joint survey in order that CIA may proceed with its project. It was also reported that NSRB representatives had participated in CIA plans pursuant to the basic directive and have been kept informed of progress to date.

On October 4, 1950, the Director of Central Intelligence reported further that the draft statement of requirements was still under internal CIA coordination and that agreement has been reached with the Bureau of the Budget for CIA to proceed with departmental surveys of facilities in consultation with the Bureau.
